

Suggested Packing List

1. Clothing: quick-dry shorts and/or pants, t-shirts, swim suit, hat, several pairs of socks (your feet will get wet).
2. A waterproof bag to hold your clothes. You may also want a poncho.
3. Water purification tablets or steri-pens. Quality water should not be a problem during any visit, but as a safety measure it would be wise to be able to purify a small amount of water if you were to find yourself in a situation where you did not have access to quality water while visiting the reservation.
4. Snacks like granola bars, trail mix, energy drink mixes, etc. Food will be provided but individuals may have certain tastes or desires that we cannot accommodate.
5. Good hiking boots and good socks
6. Flashlight
7. A camping pillow, sleeping bag, and sleep mat (small pool floats work well)
8. You may want something warmer to sleep in at night.
9. Reusable water bottle. This will save you money (as well as the environment).
10. You will need at least a day pack and depending on your trip, you might need a hiking pack as well.
11. A small first aid kit with band-aids, antibiotic ointment and alcohol wipes.
